First Come, First Served (20 person limit per session)

Highlights of our Learning Platform

eBook

Inside each course's eBook theoretical concepts are broken into chapters. Each chapter topic may include diagrams, graphs, or animated videos to provide visual demonstrations of a theory.

Self - Assessments

Quizzes provide students a quick view of what they have learned in a chapter or topic. The immediate results they receive provides an instant view of what specifically needs to be revisited prior to moving on.

Adaptive Assessments & Formative Updates

Much like a video game opening new levels and chambers, our adaptive assessments are geared to help students "climb the ladder of competency." In order to progress from one assessment to another, students must score at least the minimum established points to open the next assessment.

Progress Reports

A personalized progress report provides a detailed view of a student's course progress. Information such as how much time has been spent reviewing the content, assessment or quiz results, and more are provided.

In-Person Session Regents Review Class Schedule

Location: 3052 Natural Sciences Building, Purchase College, SUNY
