

The NYS Teacher Centers Technology Committee is pleased to present the

Smart Schools Bond Act Support Series

Technology Webinars

April 30- May 31, 2018

The NYS Teacher Center Technology Committee is offering over 55 free technology webinars to help administrators, teachers, paraprofessionals, and parents effectively use the infusion of technology in their schools to increase achievement in teaching and learning. These one-hour webinars showcase exemplary technological resources and the best practices for using these resources. Topics include using technology to meet the instructional needs of English as a New Language, Students with Special Needs, and Reluctant Learners. Participants may register for one, some, or all webinars with no fee. CTLE-approved!

Featured webinars include:

Introduction to Makerspaces

Professor Garfield: English for Your Future

How Google Chrome Can Help Your Special Education Students

Cyberbullying and Internet Safety

Virtual Field Trips and Geo Tools

Gamification and Assessment

Introduction to 3D Design and Augmented Reality

Full STEAM Ahead

Improving Parent and Student Communication with Remind
and more!

See schedule for all webinars and register on My Learning Plan:
